

The award shall consist of \$500 to be applied to student expenses to attend the national GSA meeting and present a paper in the History of Geology Division disciplinary session. It is open to all students regardless of discipline, provided the proposed paper is related to the history of a geological idea/person/etc. After the applications have been received and reviewed by the Award Committee, the winner will be notified. The winner should then register for the GSA Annual Meeting and present his or her paper at the History of Geology Division disciplinary session. A ticket to the History of Geology luncheon will be provided. The \$500 award will be presented at the time the paper is presented, and the student will also be recognized at the annual luncheon.

The student will prepare a proposal as noted below, and also a tentative abstract of the paper to GSA specifications. These will be sent to the award committee, who will make the selection and return the materials to the student in time to possibly rewrite, and send the abstract to GSA by the yearly due date.

Path for the student:

The student will prepare a short proposal for his/her paper, to be sent to the award committee. It will consist of:

- The completed application form.
- A paragraph about the content of the paper which should be in GSA abstract form.
- A sentence or two about how the projected paper fits into the student's senior or master's thesis, or his/her dissertation. With the exception of history of science students (who are welcome to apply) it is expected (but not necessary) that the paper will be fairly early in their work.
- A short statement about the department and field within which the student works.

After acceptance, the student will prepare and submit an abstract according to GSA guidelines, to the History of Geology Division.

Please send the first four materials to:
